

5200 Series

All Glass Sliding Doors

5200 Series

5200 Series

All Glass Sliding Doors

- Available in fixed panel or full breakout versions
- Sleek top and bottom rails provide for aesthetically appealing entrances
- 3" & 4" rails combined.
(Up to 6" custom sized rails upon request)
- Same silent operation and durability as the 5100 series
- Utilizes record's exclusive S.M.A.R.T. panel technology
- No framing as a normal sliding door panel would have
- Normally clad or painted for more elegant appearance
- Used with 1/2" thick tempered glass
- UL listed
- Complies with ANSI 156.10 / UL 325 Listed
- Comes complete with dual safety beams and record's self-monitoring RIC290 series sensor
- Available as single sliding or bi-parting packages

S.M.A.R.T.
Panel

- The 5200 introduces a new control panel with an intuitive interface and visual feedback of door status. Selecting the operational mode of the door is a single button press, and the built-in display will provide confirmation.
- The control panel can be manually locked, preventing unauthorized alteration by those who do not have permission to adjust the door.
- Two control panels can be installed on the same door; one at the unit and one remote.
- The control panel will automatically provide an alert message if an abnormal condition occurs.
- Provides user with the phone number of the authorized service agent.
- Reminds you of your commitment in performing a daily safety check.
- Provides information regarding objects in track that may negatively impact the operation of the door.
- Displays current door setting in regard to traffic selection and egress.
- Indicates when a door has been accidentally broken out.
- Identifies if a safety beam has failed or been damaged.
- Notifies user of which part needs replacement due to failure or abuse.
